business Opportunities.

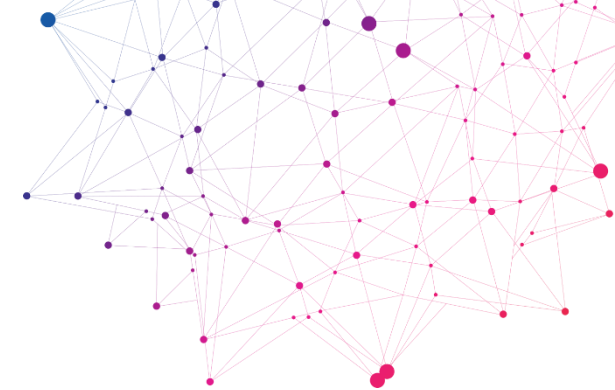

Footprints Spread Across The World

Through innovation and collaboration,
we shape the next digital transformation

Our Journey Through The Years

2015

NetForChoice Establishment

Set the foundation of NetForChoice to Solve complex IT problems with a Cloud infrastructure

2017

Introduce Cyber Security

Engineered multiple solutions & services to secure networks From cyber-attacks

2019

Arrival of DRM Solution

Start providing secure file sharing with digital rights Management

2016

Onset of Training

Onset of technology training, internship & services in association With industry's notable names

2018

Launch of Migration Service

Launch a robust platform to provide data transmission between O 365 & G Suite

2020

Partners with AliCloud

Partnership with Alibaba to facilitate extensive services over The public cloud

2020

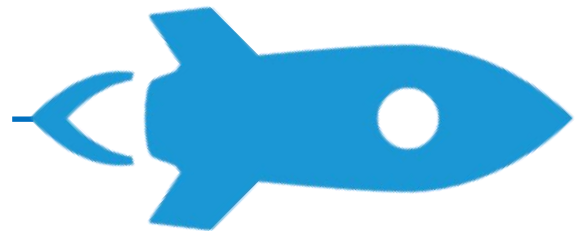

Own Data Center

NetForChoice established its first own data center to securely build & innovate faster

2020

Partners with Vaultize

Join hands with Vaultize to offer intelligent file sharing & endpoint security solution

What We Do?

Business Analytics & Big Data

Open opportunities to capture
Insights that drive innovation

Cloud & Infrastructure

Leverage intelligent cloud
Infrastructure to power up
Your business

Managed Security Solutions

Robust services to secure your
Complex IT network ecosystem

Artificial Intelligence

Transformational journey with
Adoption of futuristic
Technology

IT Consultation

Consultation & assessment
From experts to decide what is
Best for you

Cloud Migration

Secure migration of data from
One cloud platform to others
Without fail

Strengthening Partnership
Across the Globe

Our Prestigious Clients

We Partner With The Industry Leaders

WHAT MAKES US STAR IN CLOUD WORLD?

◆ **Global Presence**

Facilitates enterprise-grade cloud infrastructure products to all Industry verticals. We are operating in global data centers, with Thousands of servers worldwide, serving thousands of clients including Enterprises to startups with a high level of Customer Service.

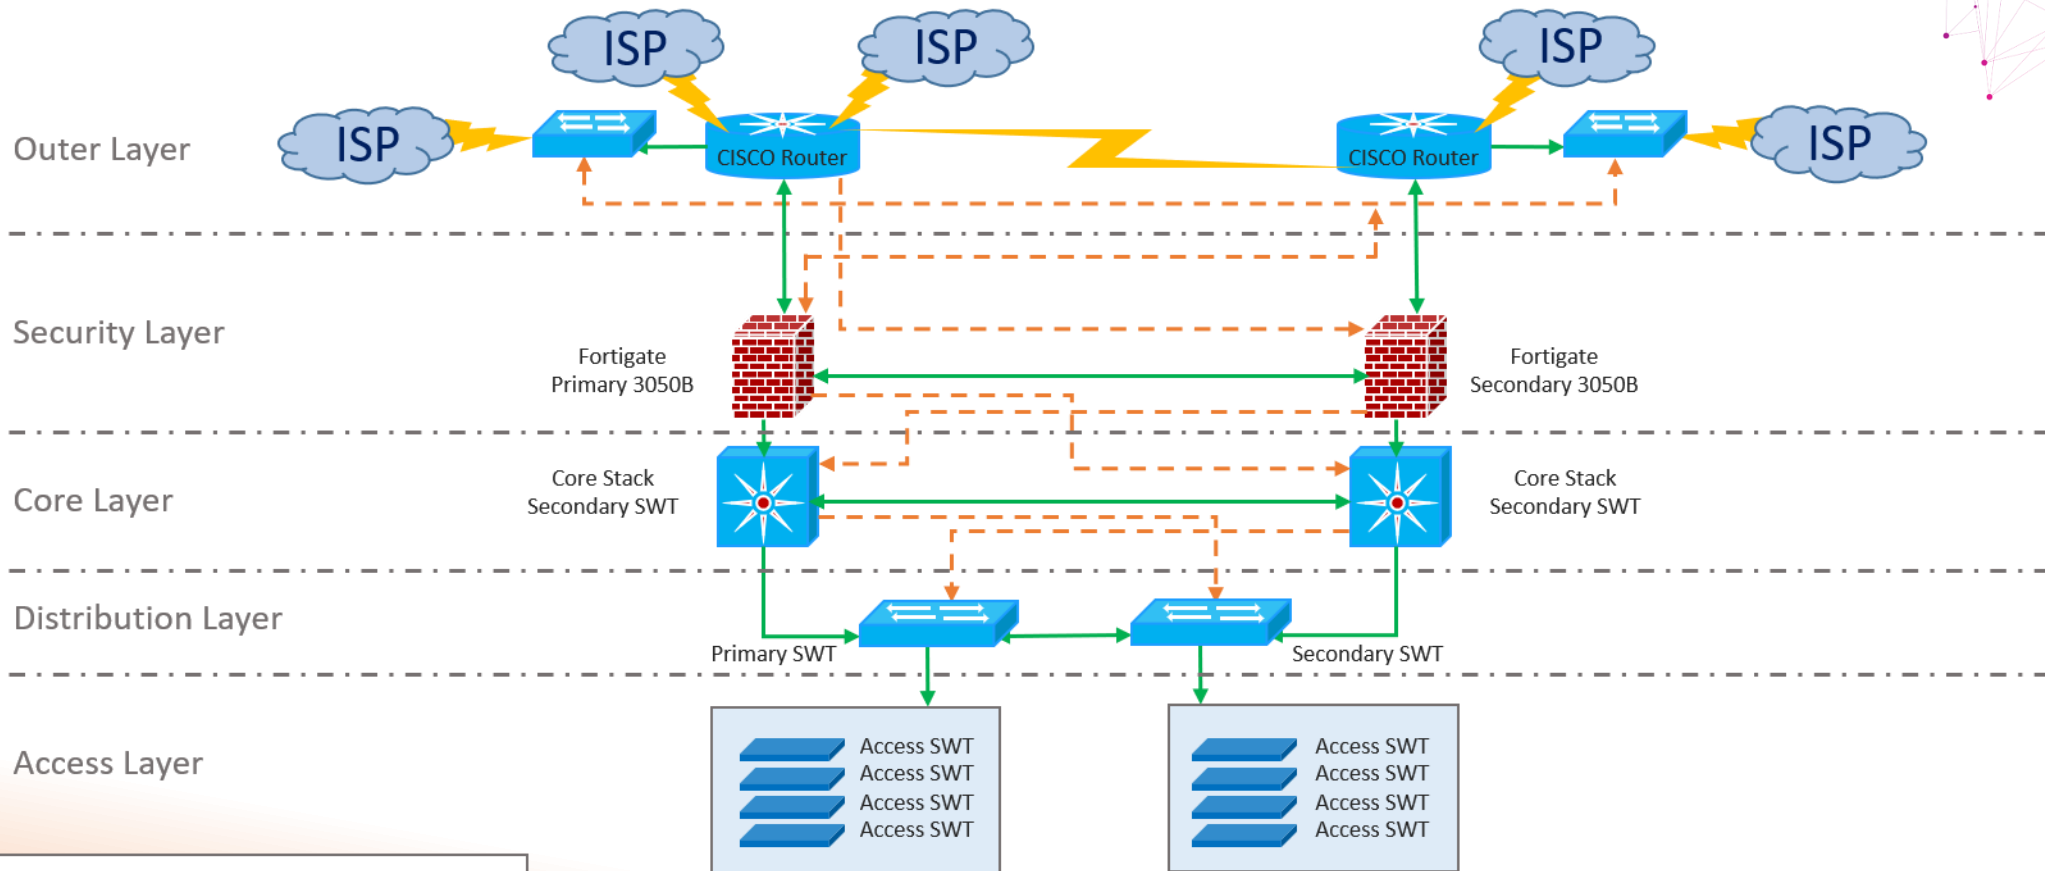

◆ **Innovating Always**

Innovation is our business success key. It helps to generate new Ideas & their translation into products and services. We constantly Transformed our ideas into reality to overcome the challenges of the Companies while opting for the cloud platform for data storage, Endpoint security to cybersecurity.

◆ **Understand Your Pain**

We understand your problem completely and work in close Cooperation with our clients to help them simplify their IT Infrastructure to work smarter. This is the reason clients have Engaged with us over the globe and make NetForChoice the most Preferred datacenter company.

Three-layer hierarchical DC network Architecture

Key

Main line		Access SWT	
Router		Main line	
Distribution SWT		Redundant line	
		Distribution line B/w 2 layers	

Our ISP's & Core Network Infrastructure

Service Catalog

Managed Services

Server Management & Support, Email, Web, DB, DNS

Security

Antivirus / IPS / IDS / UTM / WAF Managed Services

Endpoint Security

Employee Monitoring tool, DLP, File Sharing System, DRM

Bandwidth

Unmetered Bandwidth from Multiple ISP

RHS

The Remote Hand Services

Public Cloud

Deploy Scalable, Redundant Virtual Machines at a Moment's Notice

Colocation

Keep your servers. Outsource your data center

DRaaS

Recover your data in case of catastrophe

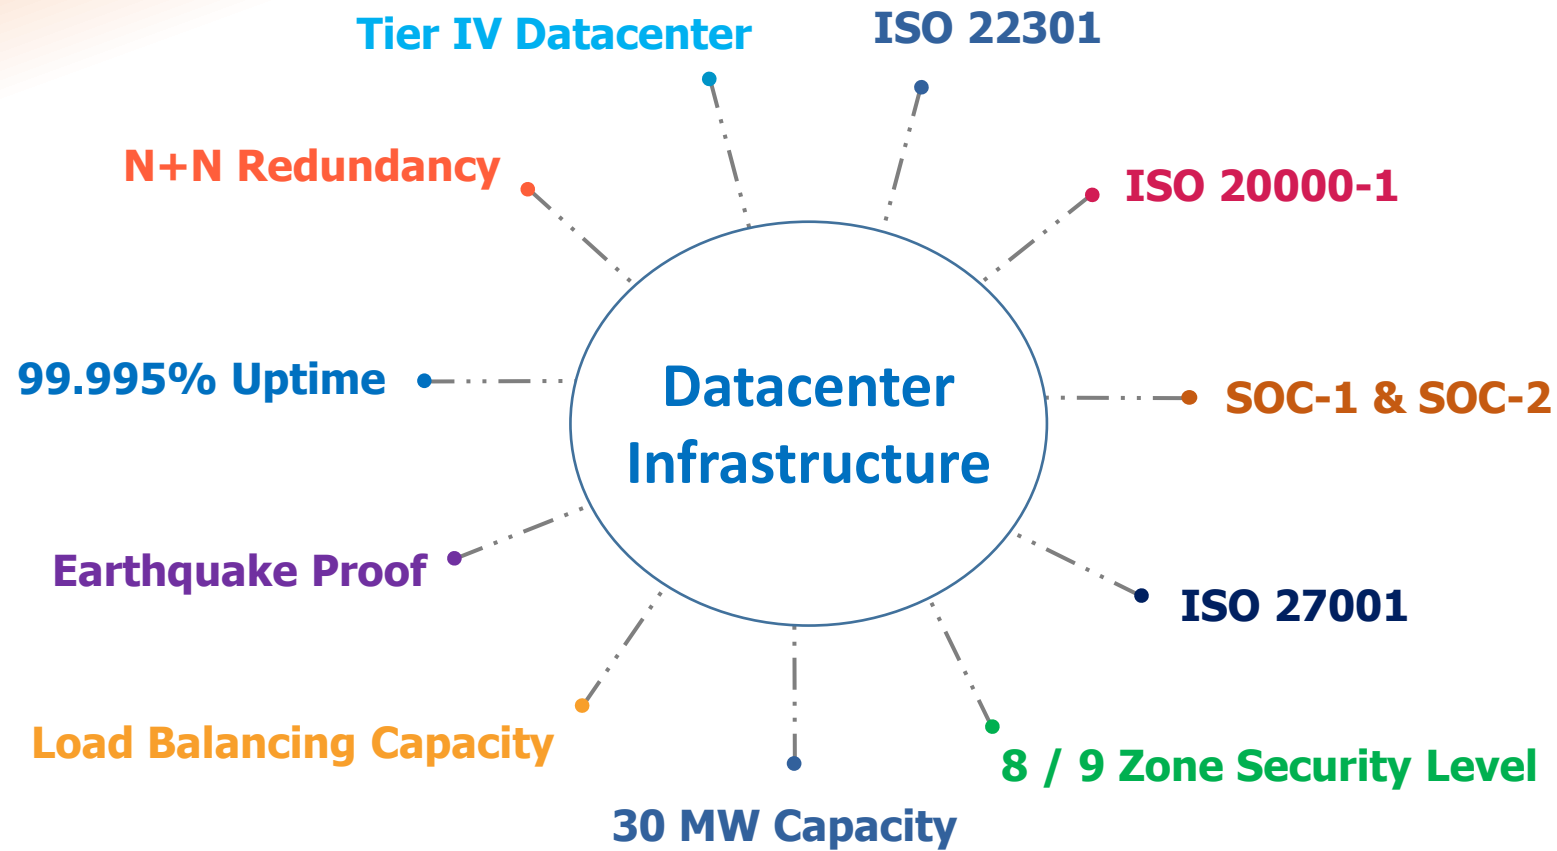

Migration

Servers and Service Migrations from other DCs

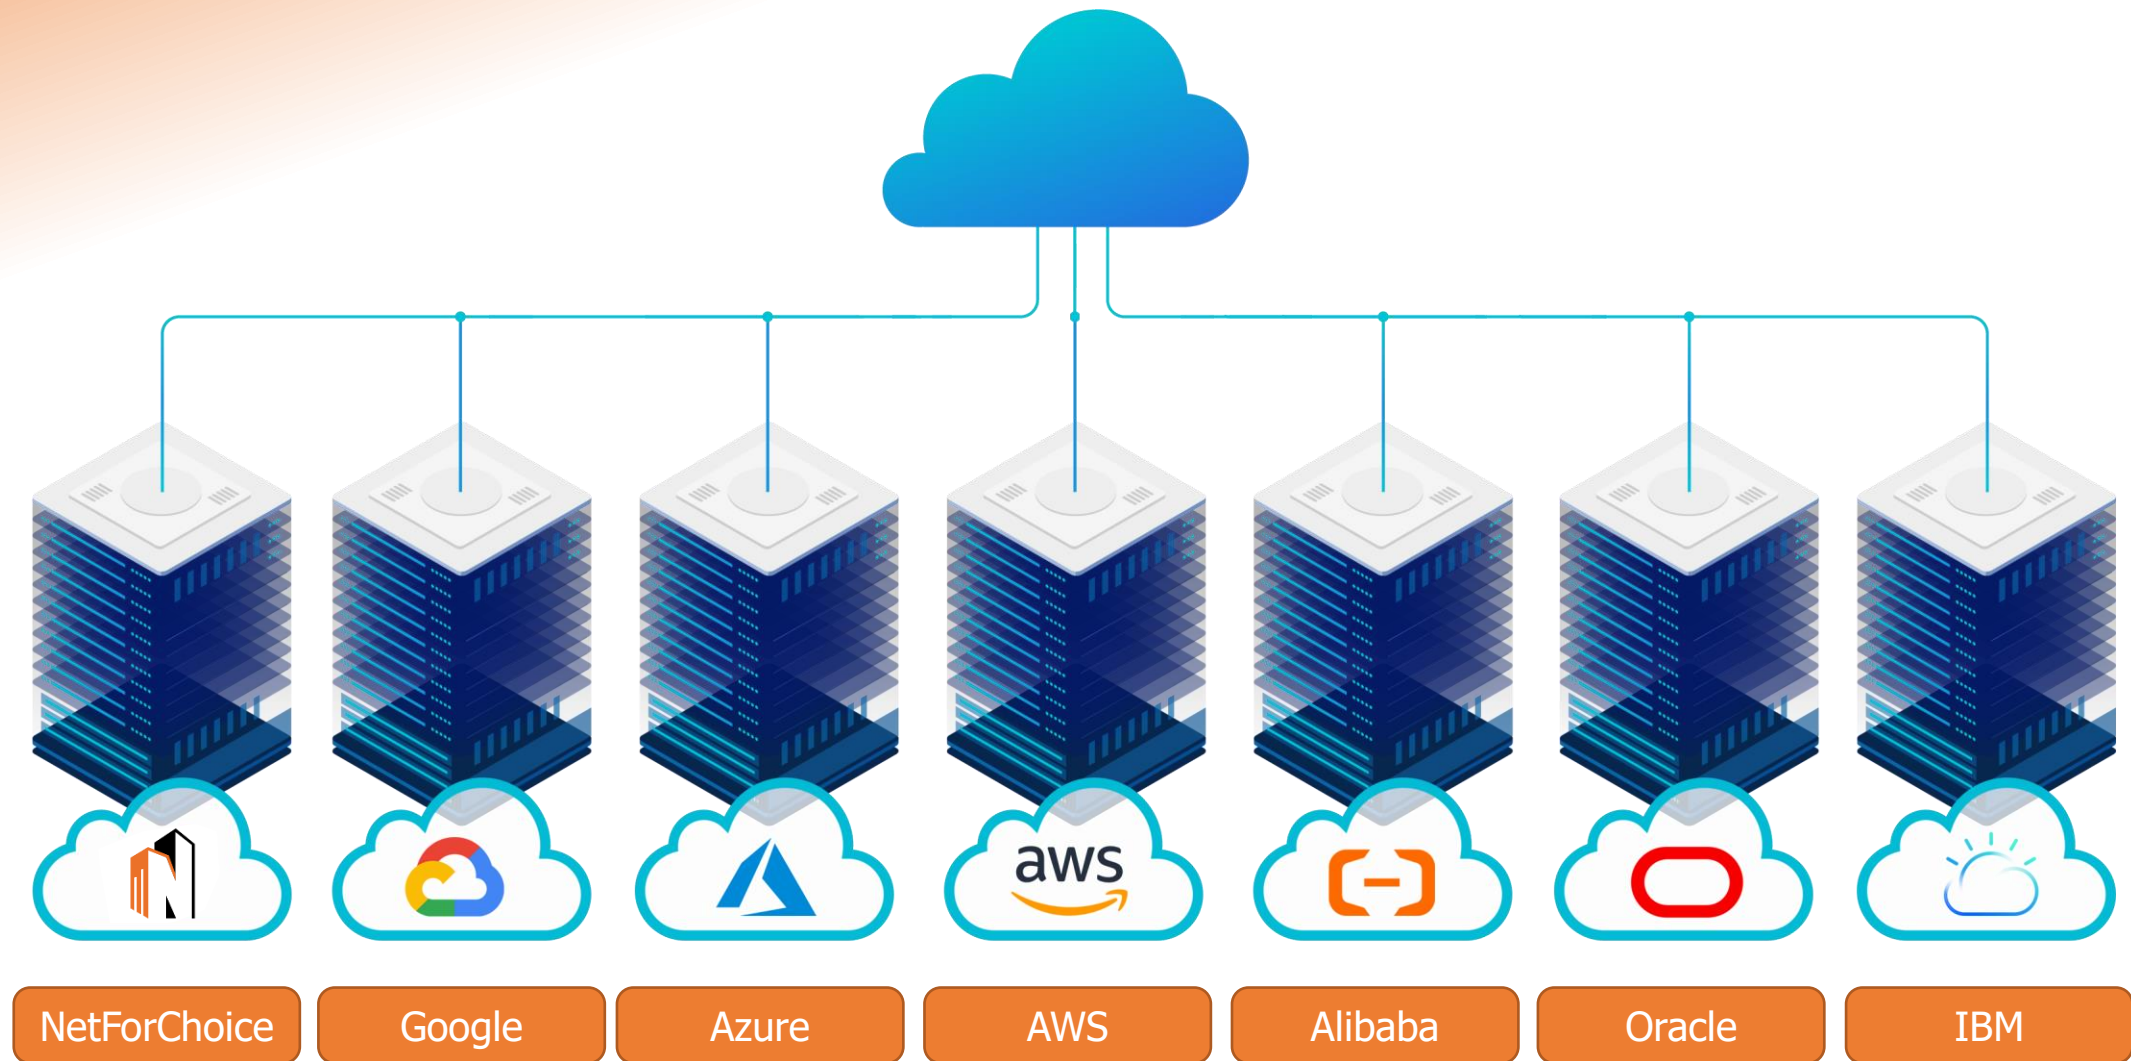

BaaS

Robust platform to secure your sensitive data

NetForChoice Multi Cloud Platform

Dedicated Servers

- **99.995% Uptime**
- **Best Hardware**
- **Full Root Access**
- **cPanel or Plesk Support**
- **Unmetered Bandwidth**
- **Managed Support**
- **Managed Windows Updates**
- **Infra Security**

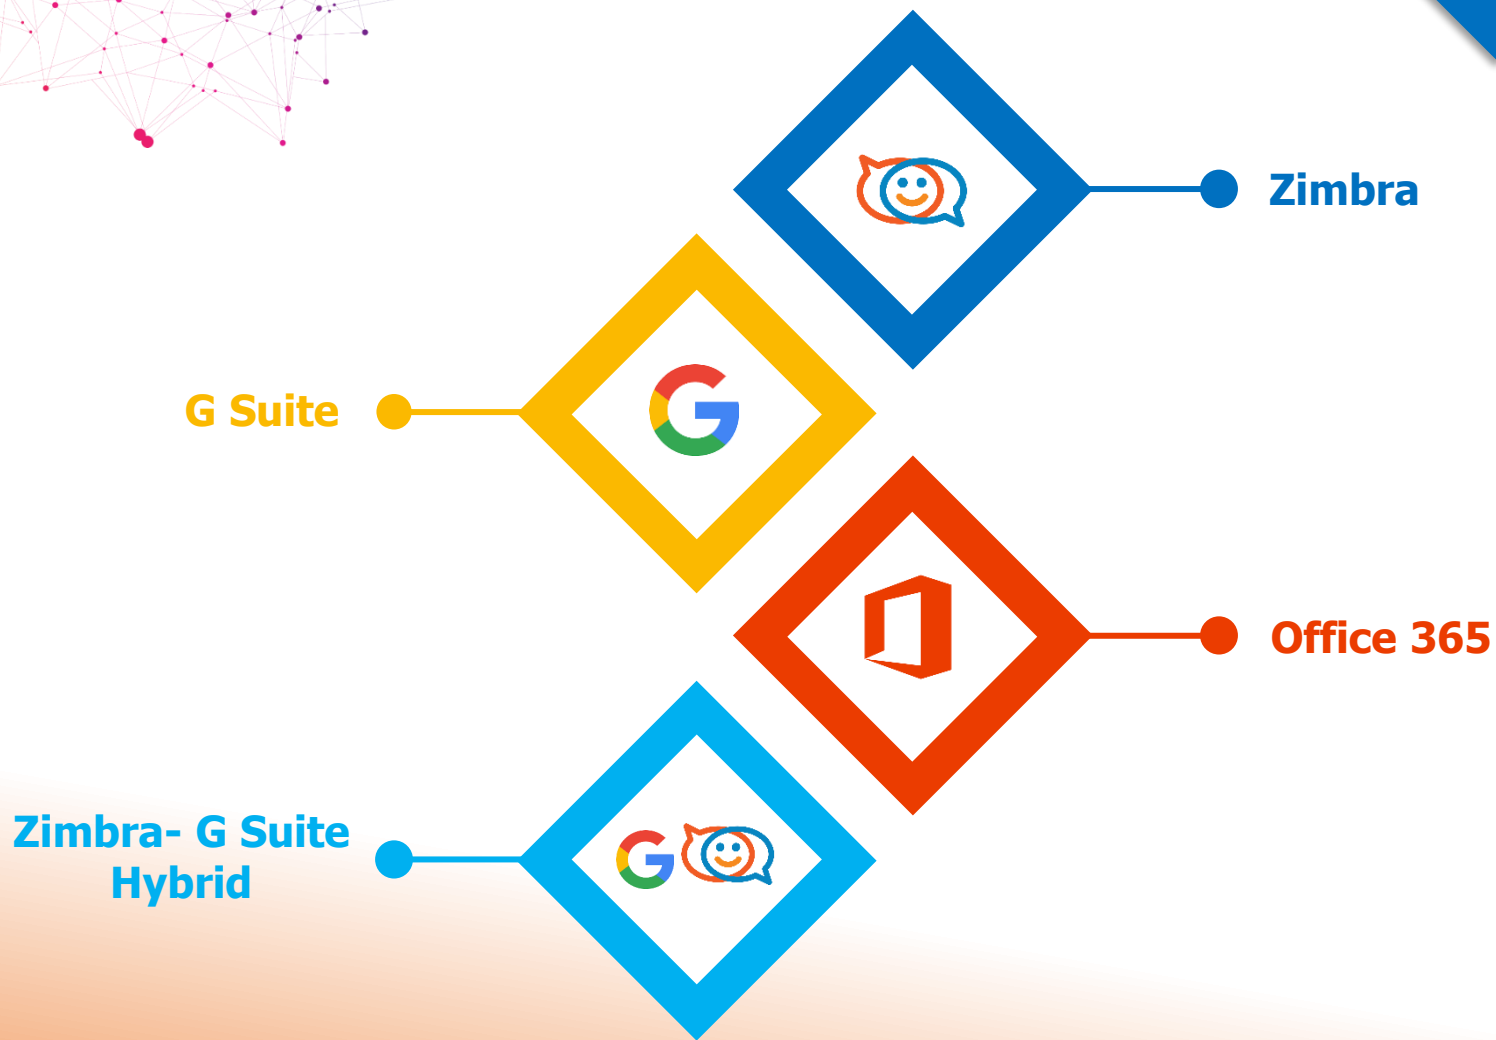

Virtual Private Servers

- **Scalable**
- **Instant Activation**
- **Fast Performance**
- **Pure SSD**
- **99.995 % Uptime**
- **Data Security**
- **Managed Service**
- **High Availability**

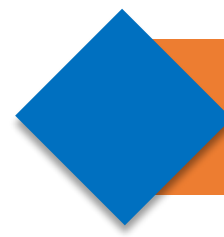

Enterprise Mailing Platform

Features

- Professional Email
- Antispam
- File Sharing in the Cloud
- Collaborate in Real-time
- Multi-Platform Functionality
- Mobile Interface
- Email Archiving

We protect your business. You grow it

Data Security & Recovery

- **Enterprise DRM & File Security**
- **Managed Disaster Recovery**
- **Managed DDoS Mitigation**
- **Compliance Design & Support**
- **Off-Site Cloud Backups**
- **Employee Monitoring Tool**
- **Antispam Protection**
- **Antivirus**
- **Vulnerability Assessment & Penetration Testing [VAPT]**
- **Data Leak Prevention Tool**

Business Continuity

High Availability

Keeping the data redundancy on the hardware & app / DB via CI, or on Hypervisor

DB Replication

Various DB replication approaches to gain different Customer needs

Backup

Deployment of backup facility as per the customer need

DR Site

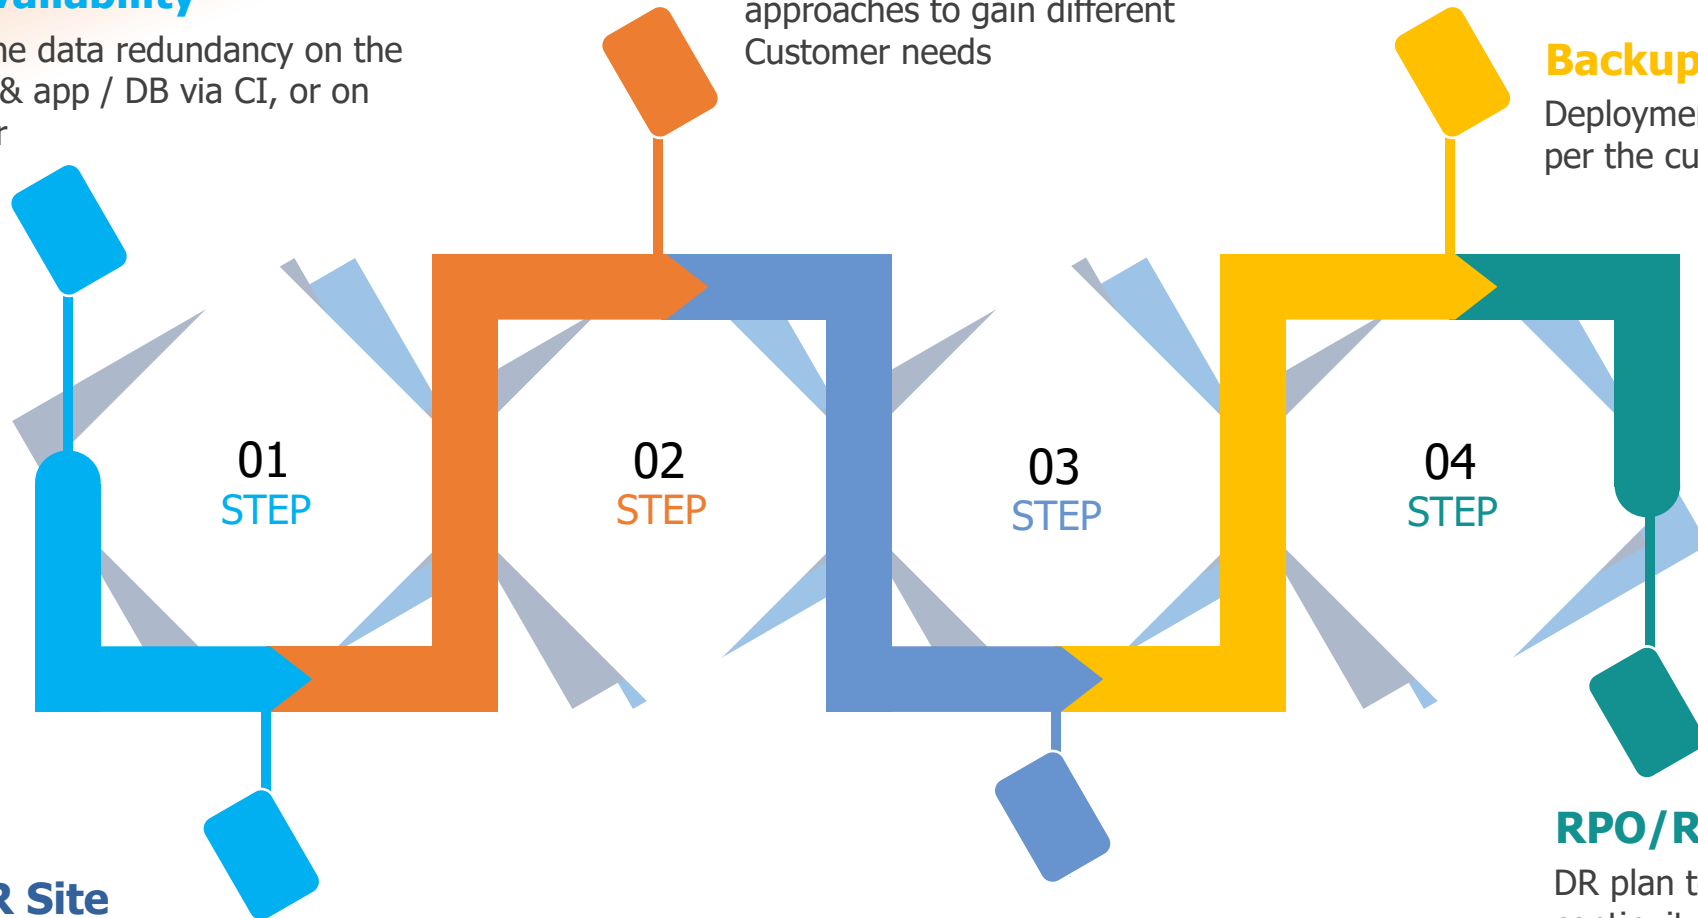

A place to temporarily relocate to following a security breach or Natural disaster

Storage Replication

Offer Storage to Storage Synchronous / Asynchronous Replication to overcome RPO

RPO/RTO

DR plan to maintain business continuity after an unexpected Event

Expertise in SAP Deployment

Sizing
Determining the
hardware
requirement

Hosting
Dedicated, Virtual,
and Cloud Hosting

Delivery
Tailor made
solution for SAP

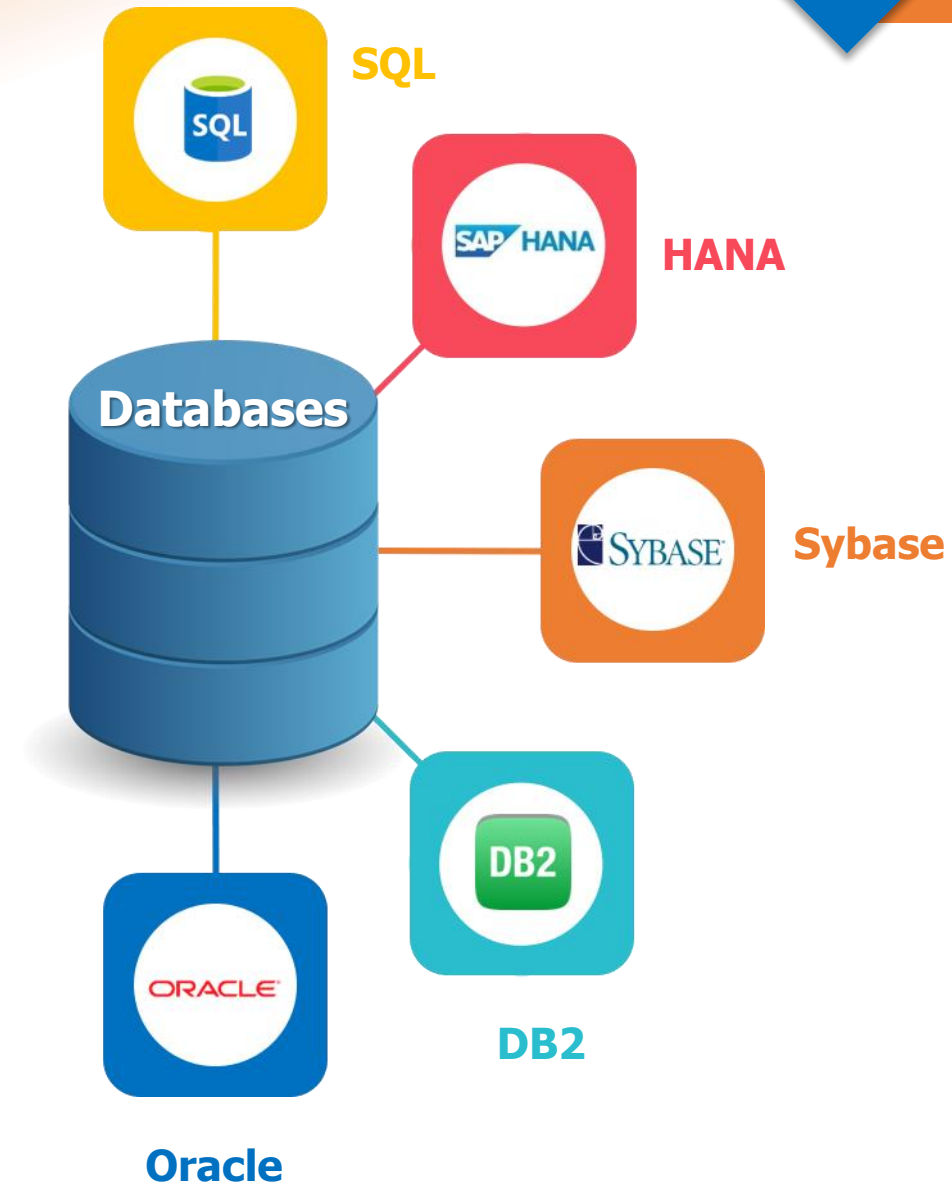

Operation
Facilitate managed
IT operation

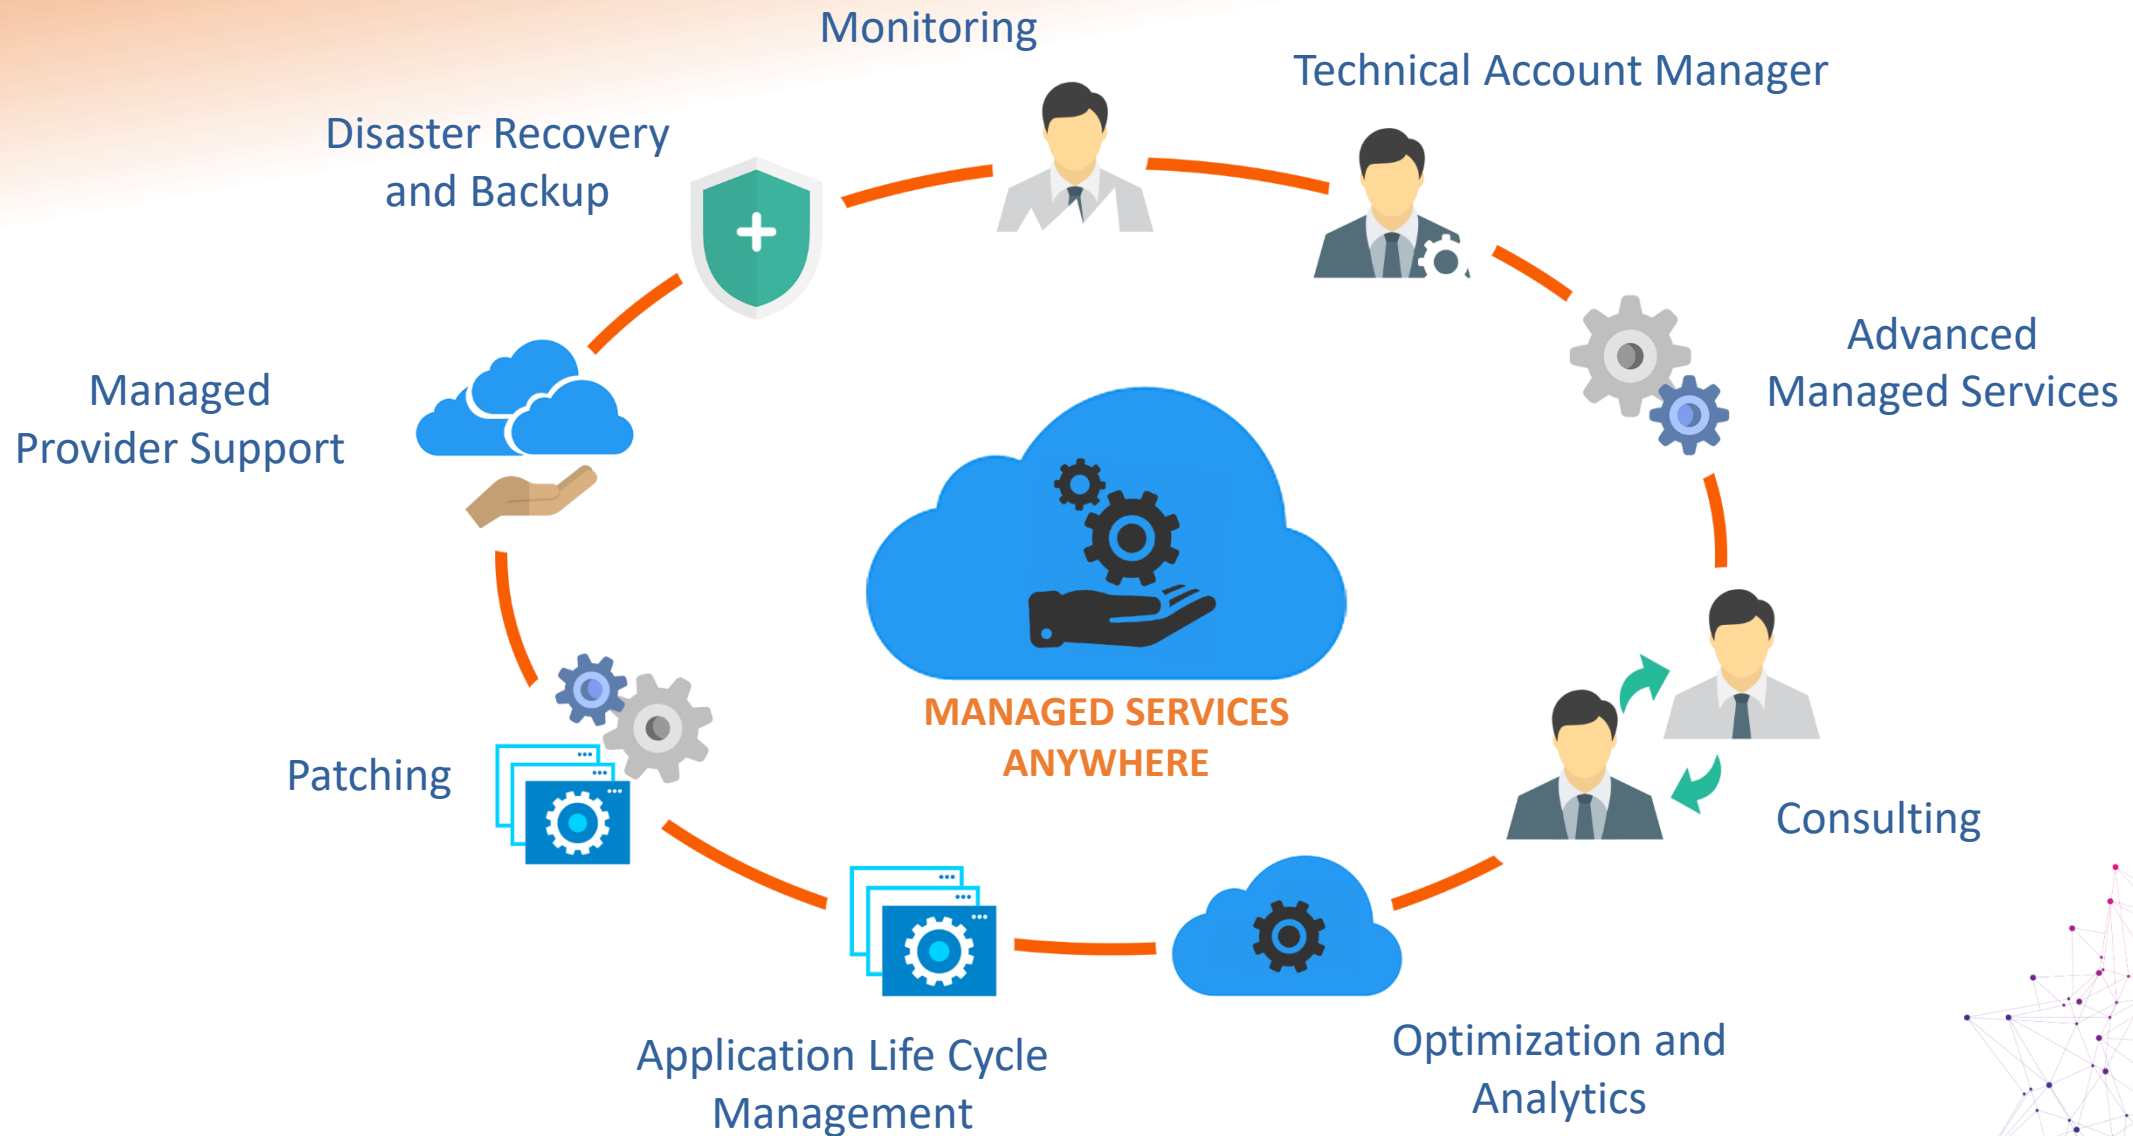

Support
Round the Clock
Support

Extensive Support for Databases

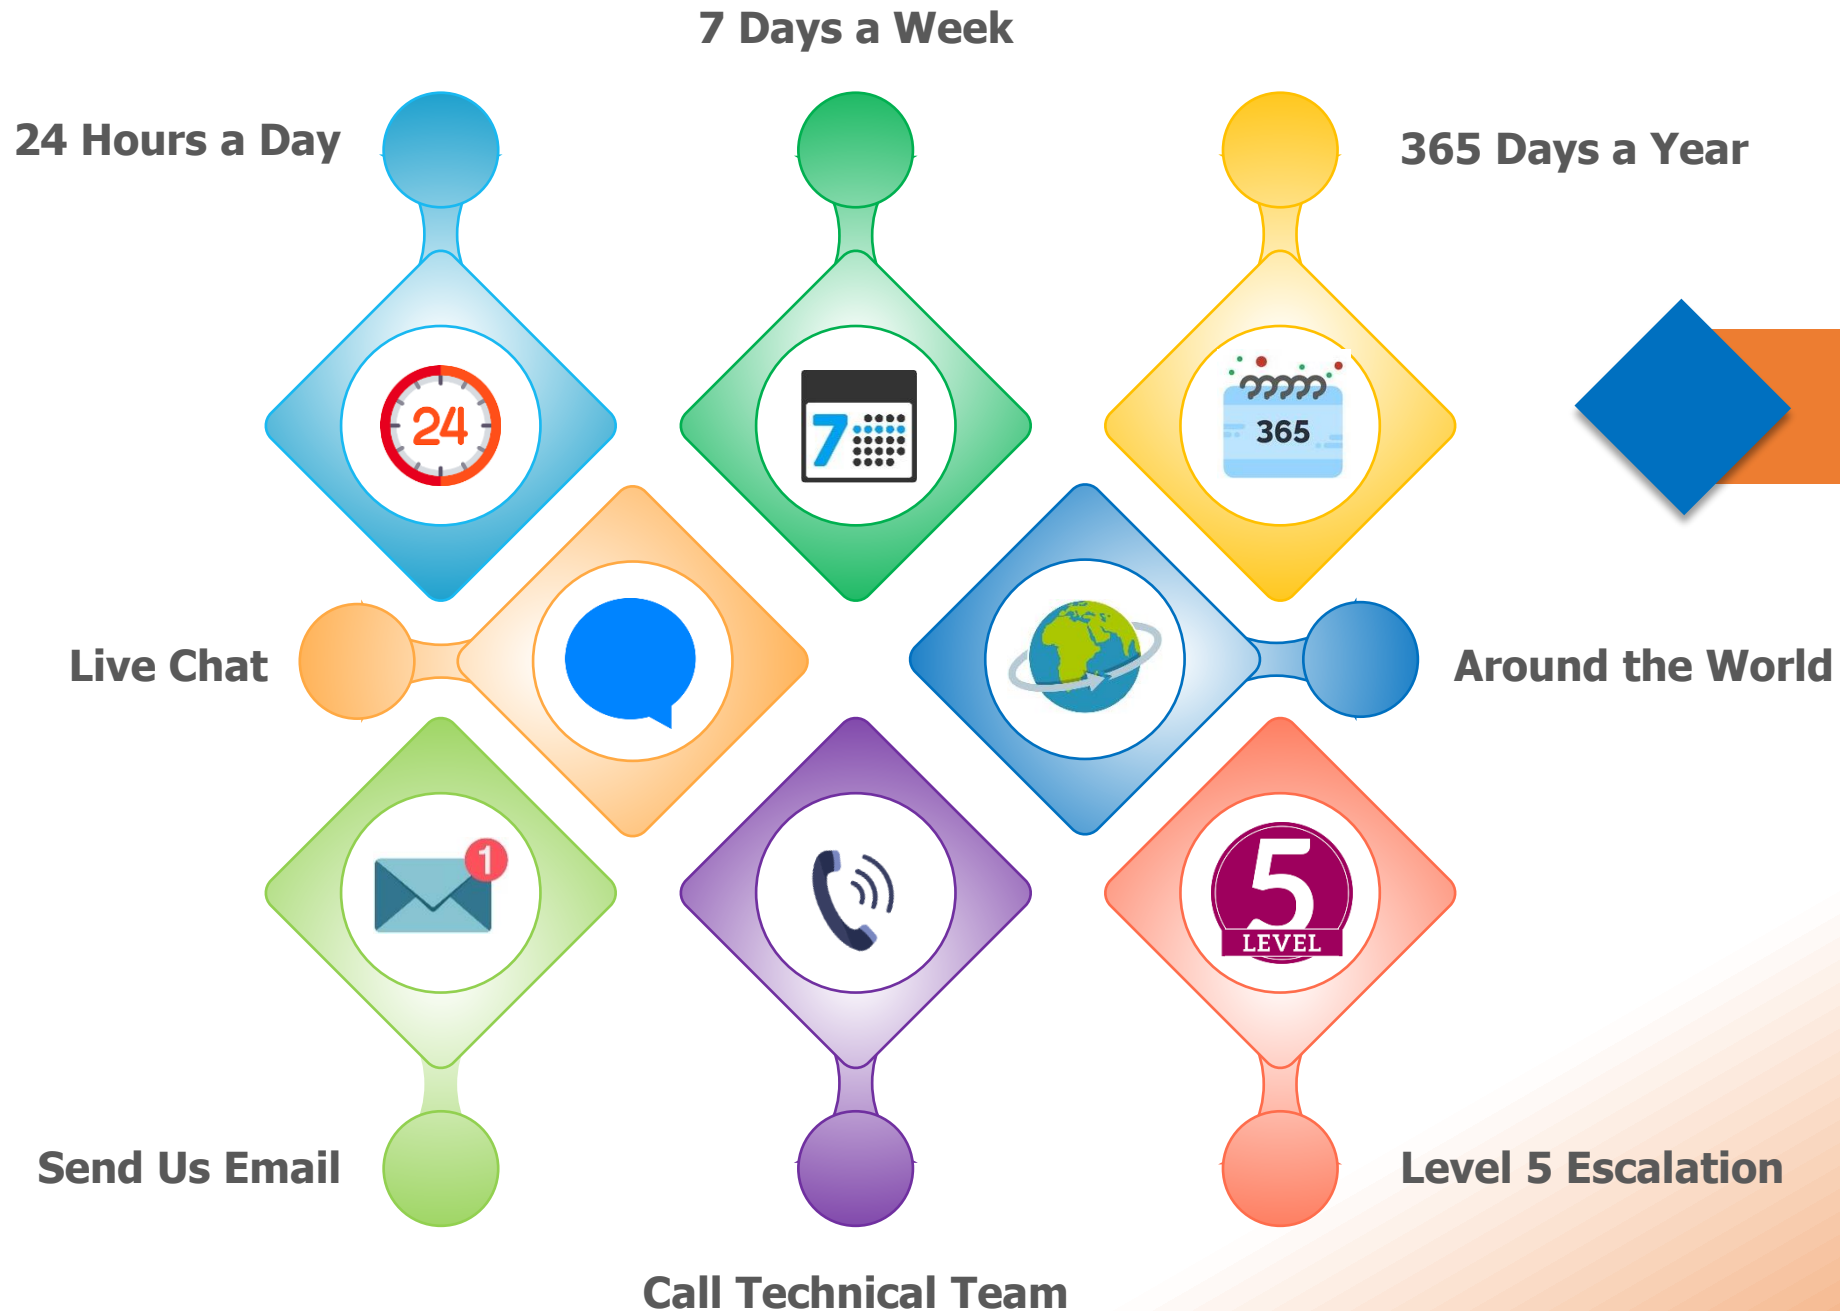

Top IT Managed Service Provider

Customer Approach

Technical Support

We're recognized for our commitment to excellence
